

Polycom SoundStation2 Basic

The SoundStation's successor is now 100% louder, providing voice quality equal to that of the Premier model. The enhanced microphone provides 360-degree sensitivity, while Intelligent Mixing uses only the microphone closest to the speaker.

- Enhanced speaker loudness and microphone sensitivity
- Dynamic Noise Reduction (DNR) - like noise cancelling headsets, this reduces the background noise
- Integrated keypad
- Intelligent Mixing
- 2.5mm jack - connect a mobile phone
- RCA jack - connect peripherals e.g. audio recorder
