

# Polycom IP6000 SIP Soundstation

The SoundStation IP 6000 is an advanced conference phone delivering super performance for conference rooms. With advanced features, broad SIP interoperability and remarkable voice quality, the SoundStation IP 6000 is a price/performance breakthrough for SIP-enabled IP environments.

The SoundStation IP 6000 features Polycom HD Voice technology, boosting productivity and reducing listener fatigue by turning ordinary conference calls into crystal-clear interactive conversations.

- Polycom HD Voice for high-fidelity calls at up to 14 kHz - conference calls that sound as natural as being there
- Polycom's patented Acoustic Clarity Technology - delivering the best conference phone experience with no compromises
- 12-foot microphone pickup - 20% greater than previous generations of IP conference phones
- Strong, robust SIP software - leveraging the most advanced SIP endpoint software in the industry, with advanced call handling, security, and provisioning features
- Robust interoperability - compatible with a broad array of SIP call platforms to maximize voice quality and feature availability while simplifying management and administration
- High-resolution display - enables robust call information and multi-language support
